

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1. (Cancelled)

2. (Currently Amended) A method for transferring a glucosyl residue to glucuronic acid and/or a salt thereof, comprising a step of:

~~allowing reacting~~ a trehalose phosphorylase ~~to act on~~ with (1) glucuronic acid and/or a salt thereof and (2) a glucosyl donor selected from the group consisting of β -D-glucose-1-phosphate, a salt thereof and trehalose; wherein said trehalose phosphorylase is a natural enzyme obtained from *Thermoanaerobium Brockii* or a recombinant enzyme thereof.

Claims 3 - 8. (Cancelled)

9. (Previously Presented) A process for producing a glucosyl-transferred glucuronic acid and/or a salt thereof or a composition comprising the same, comprising the steps of:

forming the glucosyl-transferred glucuronic acid and/or a salt thereof by the method of claim 2; and

collecting the formed glucosyl-transferred glucuronic acid and/or a salt thereof or the composition comprising the same.

10. (Original) The process of claim 9, where the formed glucosyl-
transferred glucuronic acid and/or a salt thereof or a composition comprising the same
is collected by one or more methods selected from the group consisting of decoloring,
deionization, filtration, adsorption, ion dialysis, concentration, chromatography, drying
and crystallization.

Claims 11 and 12. (Cancelled)
